
Forwarding Strategies Optimal Power Allocation

forwarding strategies for uplink gaussian multi-source ... - forwarding strategies for uplink gaussian ... power constraints of the relays are large, amplify-and-forward ... the optimal rates are achieved by forwarding the signals using the maximal power available at the relays. however, for amplify-and-forward, the power should be carefully adjusted to maximize the achievable rates. **forwarding strategies for gaussian parallel-relay networks** - forwarding strategies for gaussian parallel-relay networks ivana maric member, ieee and roy d. yates member, ieee abstract— this paper investigates reliable and unreliable forwarding strategies in a parallel-relay network. we consider the problem that maximizes the achievable rate under the total power **energy-efficient forwarding strategies for geographic ...** - energy-efficient forwarding strategies for geographic ... is the optimal forwarding metric for the arq case, and is a good metric even without arq. nodes using this metric ... links are quite common, especially at lower power settings. kotz et al. [6] enumerate the set of common assumptions **1544 ieee transactions on signal processing, vol. 61, no ...** - tive jamming (cj) and noise forwarding (nf) in improving the achievable secrecy rates of a gaussian wiretap channel (gwt). ... strategies in multiple relay networks to improve secrecy rates ... using the optimal power allocation at both the source and the **1 optimal power allocation strategies in full-duplex relay ...** - optimal power allocation strategies in full-duplex relay networks alessandro nordio, member, ieee, carla fabiana chiasserini, senior member, ieee, ... such data before forwarding it to the destination in the next available channel use. the source can use the same ... we compare the results of our optimal power allocation to a reference fd and ... **energy- and spectral-efficient adaptive forwarding ...** - optimal and sub-optimal adaptive forwarding strategies. the performance of the proposed forwarding strategies is compared to brf, crb with the optimal number of ruses, direct d2d communications, and conventional cellular communications. the remainder of the paper is organized as follows. the system model is presented in section ii. the proposed ... **forwarding strategies for congestion control in ...** - forwarding strategies for congestion control in intermittently connected networks marco cello, giorgio gnecco, mario marchese, and marcello sanguineti **forwarding strategies for gaussian parallel-relay networks** - forwarding strategies for gaussian parallel-relay networks ivana maric and roy d. yates ... in a parallel-relay network that allows orthogonal transmissions, we maximize the achievable rate under the total power constraint over all nodes. in such a network, the energy cost per information bit [1] during the reliable forwarding is minimized in ... **on exploiting contact patterns for data forwarding in duty ...** - on exploiting contact patterns for data forwarding in duty-cycle opportunistic mobile networks huan zhou, jiming chen, senior member, ieee, hongyang zhao, wei gao, member, ieee, and peng cheng, member, ieee ... forwarding strategies in terms of delivery ratio and cost. the **improved relay selection strategy for hybrid decode ...** - improved relay selection strategy for hybrid decode-amplify forward protocol . jianwu zhang. 1, ... furthermore, the optimal number of the relays was also ... forwarding power circumstances, a new opportunistic **optimal relay selection and data forwarding strategies for ...** - optimal relay selection and data forwarding strategies for secure mobile health monitoring services ... mobile health service security scheme is enhanced with optimal relay selection and data forwarding ... computing power and limited life, deployed in/on or around a human body, are able to detect and collect ...
